SPEAKERS

IPR Experts | Patent Attorney | Officials from KSCSTE

ABOUT THE WORKSHOP

Inventions and Innovations are part of the developmental process that sustain the Socio-economic development. Protecting the interest of the inventors is necessary to provide the motivation for research and development leading to more innovations. Various Governments across the world have devised laws to protect the intellectual property rights of the inventors and innovators, in the form of patent, copyright, etc. Definitions of IPR, procedures in IPR/patent applications, prior art search, IPR infringement, IP Auditing in software regime etc. will be covered in this workshop.

WHO CAN ATTEND?

Members of the Faculty, PhD/Research Scholars, SRF/JRF/INSPIRE/ PDF and PG/ UG students of NIT Calicut can participate. Participation shall be possible through advance registration only. Limited seats will be offered to external participants from reputed institutions and TEQIP Twinning Partners.
