

NATIONAL INSTITUTE OF TECHNOLOGY CALICUT HOSTELS

C12/1541/CW/NITCH/2021

26.01.2022

NOTICE

Sub: Covid protocols – strict compliance – reg.

As all are aware, our campus was declared as a COVID cluster by Health authorities based on the number of COVID positive cases reported from campus. Consequently, strict restrictions were imposed on the movements of hostel inmates. With the cooperation of all, we were able to bring down the number of positive cases among the hostel inmates.

However, it has been reported that during the past few days, students are moving around and gathering together with utter disregard to the COVID restrictions imposed in the campus. It is observed that the students are wilfully misusing the permission given to them to go to academic zone. It may please be noted that the current inmates are permitted to stay on campus for academic purposes only, based on their request and undertaking to follow the Hostel rules.

Hence it is once again brought to the notice of all that violation of the COVID protocols and Hostel rules will be dealt with very strictly.

- All inmates must follow the COVID protocols strictly. Failure to do so will result in permanent expulsion from hostels.
- All outdoor activities such as sports and games are banned until further orders. Meetings, social gatherings and congregations in any form, for whatever reason it may be, are strictly prohibited.
- Bringing food from outside and sharing it on campus is prohibited.
- Inmates will be permitted by Chief Warden to go out of NITC campus for academic purposes only, based on written request, strongly recommended by Faculty Advisor/Guide/Programme Coordinator.
- Any inmate developing COVID symptoms must inform the Hostel authorities and get tested immediately.

This issues with the approval of competent authority.
