PROFILE

Centre for Industry - Institutional Relations (CIIR)

Ongoing interaction between the Industry and Institute is an essential one. We, as an institution, put great emphasis on Industry-Institute Interaction activities. We put in every effort required to provide the industry with highly qualified and skilled fresh engineers. To strengthen the relationship between industry and our institute, the Center for Industry Institution Relationship (CIIR) was established in the year 2022 and led by a leader with over 30+ years of R&D experience.

CIIR encourages industry experts to continuously partake in curriculum design and career development programs which play a significant role in honing the students' skill set towards the industry's expectations. Towards upscaling the academia in the Global knowledge index, ample industrial exposure is provided to the faculty members to enhance the Teaching Learning Process and enable the Institution to produce quality students. It provides an excellent platform for both the students and faculty members to be aware of industry expectations from the graduates. CIIR serves as a podium to highlight the best practices, the latest technologies from an industry standpoint, and their implementation.

Vision

To enable NITC to produce industry ready graduates and relevant world class research addressing real problems.

Mission

To improve the curriculum, research and teaching process in NITC by collaborating with industry and research institutes so as to produce engineering/science/management graduates who are industry ready and have leadership qualities and are willing to develop sustainable solutions for real/practical issues

Objectives

- To establish a centre of excellence by industry/ corporate to provide real-time exposure to technologies, industrial training, campus recruitment opportunities, and internships
- To have a bonding between Industry - Institute relationships
- Visits of industry executives and practicing engineers to the Institute for seeing research work and laboratories, discussions, and delivering lectures on industrial practices, trends, and experiences.
- Joint Research Work and Consultancy by Faculty, Students, and Experts from Industries
- To Involve Students in Industrial Projects
- Workshops, conferences, and symposia with joint participation of the faculty, students, and the industries
- To enhance the student's interest in entrepreneurship and business strategies
- To work as a platform to mold the students according to the requirements of the corporate world as well as Research & Development concern
- To Organize In-Plant Training for Students
- To assist the department to establish R&D Laboratories sponsored by industries
- To establish convergence with industrial and research organizations from various fields through MOUs as a form of interaction.

CENTRE FOR Industry-Institutional Relations

**OVERVIEW**

Established in: 2022    Chairperson: Dr. Jose Mathew
