

Department of Computer Science and Engineering
National Institute of Technology Calicut
Minutes of DCC Meeting held on 10th February 2015

Venue: New CSED Conference Room

Time: 4 pm

1. DCC discussed the request from 22 final year MCA students who got internship opportunities in industry. The details of the students including name, organization, project title and internal guide was presented before DCC. As all of them have an approved Internal guide DCC resolved to recommend the request and forward it to Dean Academic.
2. DCC discussed the request from Mr.Denny Thomas (CR M.Tech 2014-2016) for permission for attending placement and 2 month internship at KLA Tencor. KLA Tencor is conducting placement through Training and Placement office. They offer placement through two phases. In the first phase selected candidates are offered 2 months internship in the company and in the second phase after internship they offer full time employment and 10 months project to the selected candidates. DCC observed that in the meeting on 19th January 2012 it was resolved that students will be permitted to do internship in industry only under the following condition.

"Student is given a guaranteed job offer along with the internship offer. In this case, Training and Placement should treat the student as placed."

DCC observed that it was the practice of the department to give a decision to do project in industry only if the project statement is studied and it is accepted as relevant by the internal guide. So giving a blanket approval for this request is not acceptable.
