Memorandum of Understanding

PREAMBLE: The recent Indian educational policy framework, including the National Education Policy 2020, underlines the need for building skill-based capacity in the Indian youth through leveraging the capacity and capability of different institutions. To harness the same, it is important to enter into formal collaboration and MOUs with reputed institutions and industry for capacity building. There is a need for a strong collaboration between the universities and industries to come up with innovative ideas in research along with investments in R&D. The industry-academia collaboration has enhanced knowledge, innovation and creativity and has played a decisive role in the economic growth of every nation. This agreement aims to bring together the industry, institutions and academia for the development of better and skill oriented all round professionals to contribute to national development.
